PROFILE

IT honours undergraduate seeking a software engineering internship, with project experience in full-stack development, REST APIs, databases, automated tests and collaborative frontend/backend work.

EDUCATION

B.Sc. (Hons) in Information Technology
Faculty of Applied Science, University of Vavuniya | 2023 - Present | Expected graduation: June 2027
Selected for the Honours programme in 2026. Coursework: object-oriented programming, data structures and algorithms, databases, web development.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks & data: React, Next.js, React Native, Expo, Spring Boot, Node.js, Express; PostgreSQL, MongoDB, SQLite, Firebase
Tools & testing: Git, Docker, Vitest, Playwright; REST APIs, API validation and regression testing

TECHNICAL PROJECTS

Buyora | E-commerce application
Next.js, Spring Boot, PostgreSQL, Redis, Docker | Repository | Verification
- Built a Next.js/Spring Boot store with LKR filters, product comparison, stock alerts, checkout, order tracking and partial returns.
- Added email retry and refund safeguards; repository checks report 70 frontend, 36 backend unit and 8 PostgreSQL integration tests passing.

GatePilot | Independent access-management prototype
React Native, Expo, Express, MongoDB, Docker | Repository | Verification
- Built shared React Native/Expo web and mobile screens with an Express/MongoDB API for vehicle visits, equipment approvals, staff QR lookup and PDF reports.
- Implemented department permissions, protected sessions and atomic visit updates; repository tests cover authentication, concurrent visits and report data.

CinemaStream | Movie discovery | Mobile & web
TypeScript, React Native, Expo, Firebase, AsyncStorage | Repository | Verification
- Built React Native/Expo discovery and collections with Firebase, per-account offline caching and reconnect synchronization; verified with 8 unit and 10 Firestore rule tests.
- Reduced the measured web entry bundle from approximately 4.25 MB to 2.67 MB by separating optional crash reporting.

TEAM PROJECTS & LEADERSHIP

GATEWAY | Semester 3.1 group project | Repository
Contributed React frontend and Express/MongoDB backend development to a team application for university vehicle records and gate-pass management.
Lanka Agri-Direct | Group project | Repository
Contributed frontend development, interface design and API integration testing to a team marketplace connecting Sri Lankan growers and consumers.
IEEEXtreme 17.0 & 18.0 participant; 18.0 organizing committee member. JamporIEEE logistics volunteer. IEEE and AIESEC member, 2023 - present.

CERTIFICATIONS

JavaScript Essentials 1 & 2 - Cisco Networking Academy; Introduction to SQL - Sololearn.
