PROFILE

IT honours undergraduate seeking a backend development internship. Build Java/Spring Boot and Express APIs with SQL and MongoDB, focusing on validation, permissions and data consistency.

EDUCATION

B.Sc. (Hons) in Information Technology
Faculty of Applied Science, University of Vavuniya | 2023 - Present | Expected graduation: June 2027
Selected for the Honours programme in 2026. Relevant coursework: object-oriented programming, data structures and algorithms, databases and web development.

TECHNICAL SKILLS

Languages & APIs: Java, JavaScript, TypeScript, SQL; Spring Boot, Node.js, Express
Data & infrastructure: PostgreSQL, MongoDB, SQLite, Redis; Git, Docker
Verification: API validation, regression checks, account isolation and synchronization conflict handling

SELECTED PROJECTS

Buyora | E-commerce application
Next.js, Spring Boot, PostgreSQL, Redis, Docker | Repository | Verification
- Built a Next.js storefront, customer accounts and admin interfaces connected to a Spring Boot API and PostgreSQL.
- Implemented catalog, cart and checkout workflows; repository unit, browser and backend regression checks cover validation, inventory and payment handling.

GatePilot | Independent access-management prototype
React Native, Expo, Express, MongoDB, Docker | Repository | Verification
- Built shared web/mobile screens and an Express/MongoDB API for vehicle visits, equipment approvals, staff QR lookup and PDF reports.
- Implemented department-scoped access, protected sessions and atomic visit transitions; repository tests cover authentication, account isolation, concurrent visits and report data.

cashManage | Personal finance application
React, JavaScript, Express, SQLite, PWA | Repository | Verification
- Built an installable React PWA with encrypted offline cashbooks, budgets, CSV import and PDF/CSV reports.
- Implemented Express/SQLite sharing roles and revision checks for sync conflicts; repository tests cover encryption, account isolation and conflicting edits.

TEAMWORK & LEADERSHIP

GATEWAY | Semester 3.1 group project | Team member | Repository
Contributed frontend and backend development to our semester 3.1 React, Express and MongoDB group project for university vehicle records and gate-pass management.
Lanka Agri-Direct | Group project | Team member | Repository
Contributed frontend development, interface design and API integration testing to a team-built marketplace connecting Sri Lankan growers and consumers.
IEEEXtreme 17.0 & 18.0 participant; 18.0 organizing committee member. JamporIEEE logistics volunteer. IEEE and AIESEC member, 2023 - present.

CERTIFICATIONS

JavaScript Essentials 1 & 2 - Cisco Networking Academy; Introduction to SQL - Sololearn.
