PROFILE

IT honours undergraduate seeking a frontend development internship. Build responsive React and Next.js interfaces with TypeScript, accessible interaction states and browser-tested workflows.

EDUCATION

B.Sc. (Hons) in Information Technology
Faculty of Applied Science, University of Vavuniya | 2023 - Present | Expected graduation: June 2027
Selected for the Honours programme in 2026. Relevant coursework: object-oriented programming, data structures and algorithms, databases and web development.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML, CSS
Mobile & integration: React Native, Expo; REST API integration, Firebase, offline storage
Tools & verification: Git, Vitest, Playwright; responsive interfaces and browser workflow checks

SELECTED PROJECTS

Buyora | E-commerce application
Next.js, Spring Boot, PostgreSQL, Redis, Docker | Repository | Verification
- Built a Next.js storefront, customer accounts and admin interfaces connected to a Spring Boot API and PostgreSQL.
- Implemented catalog, cart and checkout workflows; repository unit, browser and backend regression checks cover validation, inventory and payment handling.

cashManage | Personal finance application
React, JavaScript, Express, SQLite, PWA | Repository | Verification
- Built an installable React PWA with encrypted offline cashbooks, budgets, CSV import and PDF/CSV reports.
- Implemented Express/SQLite sharing roles and revision checks for sync conflicts; repository tests cover encryption, account isolation and conflicting edits.

CinemaStream | Movie discovery | Mobile & web
TypeScript, React Native, Expo, Firebase, AsyncStorage | Repository | Verification
- Built guest discovery and personal collections with per-account offline caching and reconnect synchronization using React Native, Expo and Firebase.
- Reduced the measured web entry bundle from approximately 4.25 MB to 2.67 MB by separating optional crash reporting.
- Verified discovery and collection logic with 8 unit tests, plus authentication, account isolation and schemas with 10 Firestore emulator rule tests.

TEAMWORK & LEADERSHIP

GATEWAY | Semester 3.1 group project | Team member | Repository
Contributed frontend and backend development to our semester 3.1 React, Express and MongoDB group project for university vehicle records and gate-pass management.
Lanka Agri-Direct | Group project | Team member | Repository
Contributed frontend development, interface design and API integration testing to a team-built marketplace connecting Sri Lankan growers and consumers.
IEEEXtreme 17.0 & 18.0 participant; 18.0 organizing committee member. JamporIEEE logistics volunteer. IEEE and AIESEC member, 2023 - present.

CERTIFICATIONS

JavaScript Essentials 1 & 2 - Cisco Networking Academy; Introduction to SQL - Sololearn.
